EDUCATION

Vignan's Institute of Information and Technology

Duvvada, Visakhapatnam , Andhra Pradesh
Aug 2024 - June 2028

B-Tech Computer Science CGPA : 9.8

TECHNICAL SKILLS

Languages: Java, Python, C++

Frontend: HTML5, CSS3, React.js

Backend: , Node.js

Databases: MySQL

AI Tools - cursor , Antigravity

Git and Git hub

PROJECTS

BLOOD CONNECT:

[Blood connect](#)

BloodConnect is a technology-driven platform designed to connect blood donors with patients in need of blood during emergencies. It helps bridge the gap between donors and recipients by providing a fast, reliable, and organized system to find suitable donors based on blood group and location. The platform promotes voluntary blood donation and builds a strong community of donors who can respond quickly to urgent requests. By using digital tools to streamline communication and coordination, BloodConnect reduces delays in critical situations and helps save lives.

BEYOND DEGREES:

[Beyond degrees](#)

Beyond Degrees is a student-driven initiative focused on helping learners develop practical skills beyond traditional degree education. It aims to bridge the gap between academic knowledge and real-world industry requirements by encouraging hands-on projects, internships, technical skill development, and continuous learning. The initiative supports students in building strong portfolios, improving problem-solving abilities, and becoming career-ready professionals. By focusing on innovation, collaboration, and personal growth, Beyond Degrees prepares students to succeed in competitive and evolving job markets.

CHALO JHARKHAND:

[CHALO JHARKHAND](#)

Chalo Jharkhand is an initiative aimed at promoting the rich cultural heritage, natural beauty, and tourism potential of Jharkhand. The campaign encourages people to explore the state's scenic landscapes, waterfalls, wildlife sanctuaries, tribal culture, and historical sites. It focuses on highlighting Jharkhand as a growing travel destination while supporting local communities and boosting regional development. Through awareness programs and tourism promotion, Chalo Jharkhand aims to showcase the state's unique traditions, natural resources, and vibrant culture to a wider audience.

COSMO EXPLORER:

[COSMO EXPLORER](#)

Cosmo Explorer is an interactive space exploration web application. It provides detailed information about planets, galaxies, and celestial objects. The platform displays real-time astronomical data using external APIs. Users can explore the solar system with a clean and modern UI. It includes images, facts, and scientific details about space bodies. The project is built using HTML, CSS, JavaScript, and API integration. Cosmo Explorer enhances learning by making astronomy visually engaging. It demonstrates my skills in frontend development and API handling.

CS

- Secured 9.8 SGPA in B.Tech (CSE).
-
- Solved 250+ problems on CodeChef.
-
- CodeChef Gold Badge Holder.
-
- Participated in 50+ CodeChef contests.
-
- Achieved 1350 CodeChef rating.
-
- Solved 130+ problems on LeetCode.
-
- Achieved 2 × 50 Days LeetCode Challenge Batches.
-
- Participated in 5+ Hackathons, gaining real-world development experience.
-
- Built major projects like Travel Mint and Cosmo Explorer with API and AI integration.
